Digital Portfolio

STUDENT NAME:D. YOGALAKSHMI
REGISTER NO AND NMID: 222411533/as1751222411533
DEPARTMENT: B.SC COMPUTER SCIENCE II ND YEAR
COLLEGE: COLLEGE/ UNIVERSITY TJS COLLEGE OF ARTS AND
SCIENCE/MADRAS UNIVERSITY

PROJECT TITLE

1) Creating frame in HTML
2) Creating drop down list in HTML
3) Creation of a table and link to any website

AGENDA

1.Problem Statement
2.Project Overview
3.End Users
4.Tools and Technologies
5.Portfolio design and Layout
6.Features and Functionality
7.Results and Screenshots
8. Conclusion
9.Github Link

PROBLEM STATEMENT

Therefore, creating a digital portfolio provides an innovative solution to display skills, projects, and experiences in a professional and engaging manner.Lack of a centralized digital platform makes it difficult to present academic achievements ,skills,and experiences.

PROJECT OVERVIEW

A digital portfolio project overview is a summarized description of your work, highlighting the purpose, goals, scope, and outcomes of the project. It gives viewers a quick understanding of what the project is about, why it was created, the technologies or skills used, and the final results. It usually includes key features, problem statements, methodologies, and a brief reflection on learning or achievements.
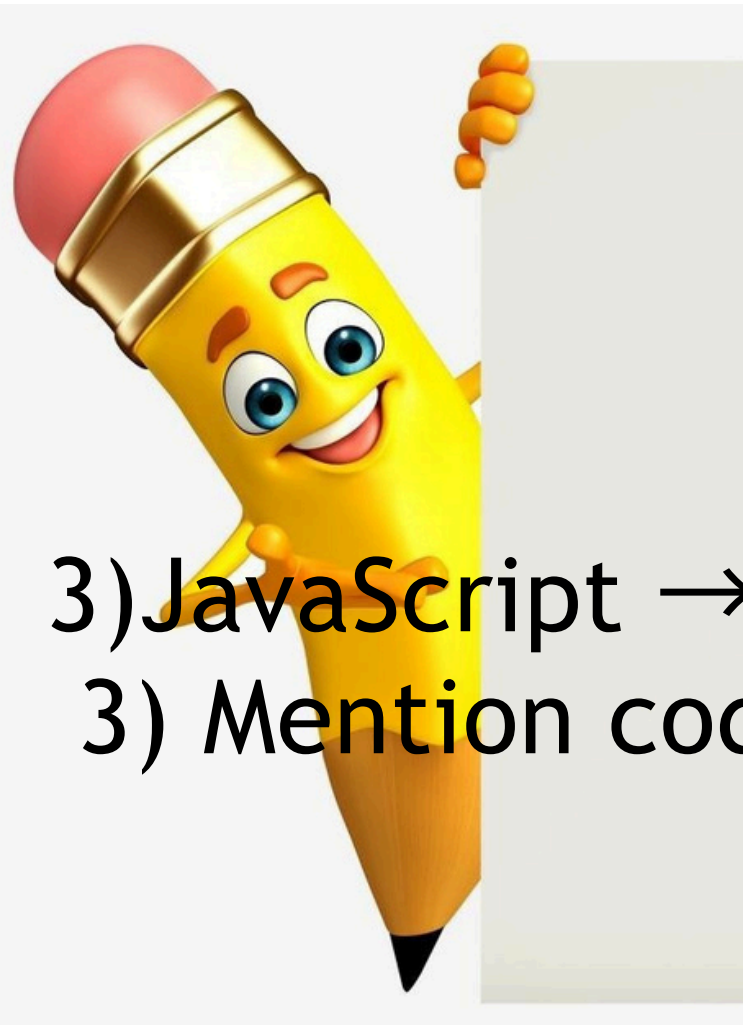

WHO ARE THE END USERS?

1).Students (academic projects, resumes).
2).Job seekers (to share with recruiters).
3). Freelancers (to show clients)
4). Professionals (to highlight experience and achievements).

TOOLS AND TECHNIQUES

1) HTMLStructure (pages, sections).
2) CSS Styling (colors, layouts, responsiveness).
3)JavaScript → Interactivity (navigation menu, animations, form validation).
3) Mention code editor (VS Code) or CODEPEN and hosting platform (GitHub Pages)

POTFOLIO DESIGN AND LAYOUT

HOME / ABOUT ME:

I am Yogalakshmi BSC computer science 2nd year TJS College of arts and science. PROJECTS: 1. Creating frame in HTML. 2. Creating drop down list in HTML. 3. Creation of a table and link to any website. CONTACT ME: Name, Email and Message.

FEATURES AND FUNCTIONALITY

##Frames (using <iframe>'):
Allows the integration of another HTML document within a designated container. Ideal for embedding third-party content, such as maps or videos.
Drop-Down Lists:
Enables users to select a single option from a list of choices. Useful for filtering, sorting, or selecting options within a form.
Tables:
Employed for displaying tabular data organized in rows and columns. Can be enhanced with CSS for improved visual appeal.
Links:
Facilitates navigation to another webpage or resource. Can be utilized for linking to external websites, internal pages, or even email addresses.

RESULTS AND SCREENSHOTS

Thus the program can be executed successfully

CONCLUSION

My digital portfolio reflects my skills, creativity, and dedication to continuous learning. It serves as a platform to showcase my academic knowledge, technical abilities, and projects. I aim to use this portfolio as a stepping stone toward future opportunities and professional growth.
